

COAL HE TOOK FROM NEIGHBOR'S CELLAR ADVANCED IN PRICE

Was \$6.80 a Ton When She
Bought, but \$7 When He
Burned It.

Did you ever stay awake nights wondering why your supply of coal in the bin in the cellar disappeared faster than you burned it?

Of course you were suspicious that one of the tenants in the same house was surreptitiously taking your coal, but you never caught them at it.

However, the first case of its kind came up before Magistrate Geismar in the Flatbush Court this morning, and it settled the question of how the coal supply disappears faster than you burn it.

It was the case of Charles W. Thompson, now of No. 112 East Third Street, who was summoned into court on the charge of petty larceny made by Mrs. A. D. Flynn of No. 65 West Street.

The Thompsons and the Flyns live in the same house on West Street when the latter took a trip to Europe. Mrs. Flynn is a buyer employed by a big New York house.

Mrs. Flynn took a good look at her supply of coal before she sailed abroad. She could tell you to the place just how much coal she was leaving behind. Lo and behold! When she returned she discovered that the coal had disappeared. She set to work to find out who took it and she learned that it was Thompson.

Thompson admitted that he used the ton and a half of coal that Mrs. Flynn said he took, but that he didn't think it was wrong, as his wife had just given birth to a baby and their finances were very low.

Magistrate Geismar gave Thompson an awful raking over the coals. Mrs. Flynn declared she paid \$6.80 a ton for the coal, but the Judge said Thompson would have to give her \$10.50 for the ton and a half of coal that he took, as the price of coal was now \$7 a ton. He knew this far a fact, he said, because he bought some himself yesterday.

Thompson had only seven dollars and he had to hand that over to Mrs. Flynn. The Judge gave him until Dec. 8 to make good the other \$3.50 and left him in the custody of a probation officer.

BORDEN'S GRADE A MILK

PASTEURIZED

The Milk For The Baby

Yet sold at a price that makes
it available for the whole family.

The farms from which this milk comes are high grade dairies every one of them. Each must score 68 points or better to meet our requirements—8 points above the requirements of the Health Department.

To get this score of 68 points the farmer must have a superior dairy equipment and employ scrupulous dairymen. In other words, he must do those things that insure clean milk.

When the milk comes to us it is received at one of those wonderful Borden Country Plants that have won the admiration of Sanitarians from all over the country.

It is in these plants that the milk is pasteurized and bottled. It never reaches the city in bulk, but is handled in the pure, clear air of the country.

We would like you to try our Grade "A" Milk pasteurized. We are proud of it and believe it to be the best milk investment you can make.

You can leave your order with any Borden Wagon, write a postal, or Telephone Franklin 1182 and your service will begin at once.
